0 of 0 review helpful Decent alternative By Scoundrel Bought this as a cheaper substitute of the original textbook This one lacks many of the graphics and details to make up for its weight and size though can only notice if you are comparing them side by side Because it s a lot lighter and compact I found it more suitable for carrying around for any personal studying I wanted to do elsewhere 1 of 1 review helpful This is the textbook used by the University of California Berkeley in its Math 55 course
