**By Miloslav Feistauer, Jiri Felcman, Ivan Straskraba : Mathematical and Computational Methods for Compressible Flow (Numerical Mathematics and Scientific Computation)** mathematical and computational methods for compressible flow numerical mathematics and scientific computation document about mathematical and computational methods mathematical and computational methods for compressible flow numerical mathematics and scientific computation a book by Mathematical and Computational Methods for Compressible Flow (Numerical Mathematics and Scientific Computation):

This book is concerned with mathematical and numerical methods for compressible flow It aims to provide the reader with a sufficiently detailed and extensive mathematically precise but comprehensible guide through a wide spectrum of mathematical and computational methods used in Computational Fluid Dynamics CFD for the numerical simulation of compressible flow Up to date techniques applied in the numerical solution of inviscid as well as viscous compressib
