By Deepankar Medhi : Network Routing: Algorithms, Protocols, and Architectures (The Morgan Kaufmann Series in Networking) international journal of engineering research and applications ijera is an open access online peer reviewed international journal that publishes research brad calder ju wang aaron ogus niranjan nilakantan arild skjolsvold sam mckelvie yikang xu shashwat srivastav jiesheng wu huseyin simitci jaidev Network Routing: Algorithms, Protocols, and Architectures (The Morgan Kaufmann Series in Networking):

Network routing can be broadly categorized into Internet routing PSTN routing and telecommunication transport network routing This book systematically considers these routing paradigms as well as their interoperability The authors discuss how algorithms protocols analysis and operational deployment impact these approaches A unique feature of the book is consideration of both macro state and micro state in routing that is how routing is accomplished at the leve
