## **Linear Programs and Related Problems (Computer Science and Scientific Computing)**

By Evar D. Nering, Albert W. Tucker audiobook | \*ebooks | Download PDF | ePub | DOC

| #3585410 in Books | Evar D Nering | 1992-10-26 | Original language: English | PDF # 1 | 9.02 x 1.31 x 5.98l, 2.30 | File type: PDF | 584 pages | Linear Programs Related Problems Tx | File size: 19.Mb

By Evar D. Nering, Albert W. Tucker: Linear Programs and Related Problems (Computer Science and Scientific Computing)

students in the computer engineering technology computing science program at algonquin college learn all aspects of programmingsoftware development in cs 103 mathematical foundations of computing 3 5 units mathematical foundations required for computer science including propositional predicate logic induction Linear Programs and Related Problems (Computer Science and Scientific Computing):

3 of 3 review helpful Karmarkar and back again By A Customer Don t read this book expecting computer programming instruction in the linear language It s a whole different animal of operations research Linear programming concerns minimizing and maximizing linear functions under a set of linear constraints This book brings the best problems to linear programming solves and the recent theorems I found it s handling of This text is concerned primarily with the theory of linear and nonlinear programming and a number of closely related problems and with algorithms appropriate to those problems In the first part of the book the authors introduce the concept of duality which serves as a unifying concept throughout the book The simplex algorithm is presented along with modifications and adaptations to problems with special structures Two alternative algorithms the ellipsoidal algorit From the Back Cover This text is concerned with the theory of linear and nonlinear programming related problems and the algorithms appropriate to the problems The concept of duality is introduced early and serves as a unifying theme throughout the book It is
