From Springer : The Mathematics of Information Coding, Extraction and Distribution (The IMA Volumes in Mathematics and its Applications) (v. 107) list of the new elected members to the european academy of sciences international journal of engineering research and applications ijera is an open access online peer reviewed international journal that publishes research The Mathematics of Information Coding, Extraction and Distribution (The IMA Volumes in Mathematics and its Applications) (v. 107):

High performance computing consumes and generates vast amounts of data and the storage retrieval and transmission of this data are major obstacles to effective use of computing power Challenges inherent in all of these operations are security speed reliability authentication and reproducibility This workshop focused on a wide variety of technical results aimed at meeting these challenges Topics ranging from the mathematics of coding theory to the practicalities
