By John Hooker : Logic-Based Methods for Optimization: Combining Optimization and Constraint Satisfaction sanfoundry located at bangalore offers internships to deserving bebtech students in computer science and engineering branch go to your favorite topic mentioned prolog is a general purpose logic programming language associated with artificial intelligence and computational linguistics prolog has its roots in first order Logic-Based Methods for Optimization: Combining Optimization and Constraint Satisfaction:

A pioneering look at the fundamental role of logic in optimization and constraint satisfaction While recent efforts to combine optimization and constraint satisfaction have received considerable attention little has been said about using logic in optimization as the key to unifying the two fields Logic Based Methods for Optimization develops for the first time a comprehensive conceptual framework for integrating optimization and constraint satisfaction then goes This is a book that should be widely read by graduate students and researchers in both the computer science and optimization communities Choice Vol 38 No 7 March 2001 Goal is to broaden the conceptual foundations of optimization to incl
