By Katrin Tent, Martin Ziegler: A Course in Model Theory (Lecture Notes in Logic) this concise introduction takes the reader from standard notions to more advanced topics it introdu mathematical logic math 570 lecture notes lou van den dries a course in model theory springer 2000 and for additional material on computability to A Course in

Model Theory (Lecture Notes in Logic):

This concise introduction to model theory begins with standard notions and takes the reader through to more advanced topics such as stability simplicity and Hrushovski constructions. The authors introduce the classic results as well as more recent developments in this vibrant area of mathematical logic Concrete mathematical examples are included throughout to make the concepts easier to follow. The book also contains over 200 exercises many with solutions making the
