By Israel M. Gelfand, Mikhail Kapranov, Andrei Zelevinsky : Discriminants, Resultants, and Multidimensional Determinants (Mathematics: Theory & Applications)

resultants and multidimensional determinants functions up to their recent applications in the classical theory of resultants and discriminants discriminants resultants and multidimensional determinants mathematics theory and applications di israel m gelfand; mikhail kapranov; andrei zelevinsky su Discriminants, Resultants, and Multidimensional Determinants (Mathematics: Theory & Applications):

This book revives and vastly expands the classical theory of resultants and discriminants Most of the main new results of the book have been published earlier in more than a dozen joint papers of the authors The book nicely complements these original papers with many examples illustrating both old and new results of the theory Mathematical Reviews
