Grades 6-8 math games and more at mathplayground problem solving and puzzles the entire family will enjoy curriculum enrichment resources for teachers and homeschoolers in math and science reading and writing service learning and more ap studies ill structured Spatial Reasoning Puzzles That Make Kids Think! Grades 6-8:

2 of 2 review helpful I love this book By veronica james I teach a math class and I am always looking for puzzles and games that make my students THINK Spatial Reasoning Puzzles do just that My students love the puzzles and are always engaged in completing the puzzles This book is a must have for teachers of all discipline The puzzles keep students on their toes and sharpens the thinking skills that is Spatial Reasoning Puzzles That Make Kids Think engages

even the most reluctant math learner In this fun and challenging book students must conquer four types of logical and spatial reasoning path puzzles Slitherlink Hashiwokakero Masyu and Yajilin The rules for each type of puzzle are very different but easy to understand The challenge is for students to apply their critical thinking skills to new situations and develop new strategies for solving each p I would recommend this book for any educator who works with grade 4 students and above The puzzles could be used for enrichment and small group activities They can challenge students at all levels build spatial reasoning and provide space for discussion an
