By Volker Diekert, Manfred Kufleitner, Gerhard Rosenberger, Ulrich Hertrampf: Discrete Algebraic Methods: Arithmetic, Cryptography, Automata and Groups (De Gruyter Textbook) Discrete Algebraic Methods: Arithmetic, Cryptography, Automata and Groups (De Gruyter Textbook):

From basic algebraic structures to cryptography arithmetic with elliptic curves and automata this textbook contains a modern introduction to discrete algebraic methods as required by mathematicians and computer scientists in the age of the internet It lays foundations for theoretical computer science and is suitable for master students with a basic background in mathematics About the Author Volker Diekert Manfred Kufleitner and Ulrich Hertrampf Stuttgart Germany Gerhard Rosenberger Hamburg Germany
