Richter on the Occasion of His 65th Birthday (Lecture Notes in Computer Science) Logic versus Approximation: Essays Dedicated to Michael M. Richter on the Occasion of His 65th Birthday (Lecture Notes in Computer Science):

Nowadays knowledge based systems research and development essentially employs two paradigms of reasoning There are on the one hand the logic based approaches where logic is to be understood in a rather broad sense usually these approaches are used in symbolic domains where numerical calculations are not the core challenge On the other hand we find approximation oriented reasoning methods of these kinds are mainly applied in numerical domains where approximation is
