**By William Graham Hoover, Carol Griswold Hoover : Time Reversibility, Computer Simulation, Algorithms, Chaos (Advanced Series in Nonlinear Dynamics) (Advanced Series on Mathematical Psychology)** time reversibility computer simulation algorithms chaos advanced series in nonlinear dynamics advanced series on mathematical psychology by advanced series in nonlinear dynamics time reversibility computer simulation algorithms chaos; time reversibility in physics and computation; Time Reversibility, Computer Simulation, Algorithms, Chaos (Advanced Series in Nonlinear Dynamics) (Advanced Series on Mathematical Psychology):

A small army of physicists chemists mathematicians and engineers has joined forces to attack a classic problem the reversibility paradox with modern tools This book describes their work from the perspective of computer simulation emphasizing the authors approach to the problem of understanding the compatibility and even inevitability of the irreversible second law of thermodynamics with an underlying time reversible mechanics Computer simulation has made it Bill and Carol Hoover have teamed up to produce this greatly expanded new edition of Bill s earlier book grappling with one of the oldest problems in physics mdash reconciling the irreversibility of thermodynamics with the reversibility of Newtonian mec
